Sheetfed Cloth Systems Automatic Blanket Wash PM Program

Baldwin is pleased to offer an annual Blanket Wash PM program for your Sheetfed Press. Our Service Specialist will visit your facility at a predetermined schedule of your choosing. The PM Service visit is intended to help maintain, and to keep your system performing at an optimal level.

This visit will consist of:

- Two (2) days (up to 16 labor hours) on-site assessment PM services
- System overview with press crews and management team
- Review on-press reports of system performance concerns and maintenance
- Tune-Up and optimize of program cycles based on feedback or immediate needs
- Remove cleaning heads as needed for visual inspection
- Inspect mechanical components for wear, proper function, and operations
- Inspect the operator panels and its electrical components for proper function
- Check and adjust pad settings as needed for recommended cylinder contact
- Monitor production wash cycles to verify wash quality and cleaning performance
- Review key topics with crew and maintenance on maintaining for best results
- Train personnel on the latest technics and procedures
- Review cloth options for future on press cloth audits, and system upgrades
- Review Automatic Replenish Program (ARP), for all your cloth needs

During our visit if we discover worn or damaged items that we are not able to address due to production time constraints, we will provide you with a full report outlining those needed repairs.

A comprehensive Service report will be provided outlining the tasks performed, recommendations and action items to ensure that your system will perform at its best.

For additional cost savings we recommend keeping an emergency stock of parts on-hand that can be used during our visits, we would be happy to provide suggestions on your request.

A 10% labor discount (off standard labor rates), is only offered with advance scheduling. This discount will also be extended to travel hours. Your PO is required at the time we confirm your requested service date.

- One (1) PM visits = 16 hours (labor hours can be adjusted if needed)

Note: Travel hours and expenses are in addition to the in-plant labor hours above. Total travel, and expenses will be calculated at the completion of your visit and invoiced as T&E. This PM visit is based on normal business hours M-F (weekend rates are available on request).

If repairs are requested while onsite this can accommodate with management's approval and apply that time to the same PO as instructed for repair services.

On the return of this offer we will confirm your Pre-Scheduled requests for the time and dates of your choosing. Please be sure that Eight (8), hours of press time is also available during the scheduled PM visit so we can conduct the necessary inspections, and system adjustments as required.

Pre-Scheduled PM's with 30+ day notice receive 10% labor discount
